Switch Type: Linear	KTT
Total Stem Travel	4.015 mm
Peak Force	60.6 gf
Bottom Out Force	60.6 gf
# of Upstroke Points	1244
# of Downstroke Points	1114

### Testing Notes

- While the majority of this force curve does look normal for a linear switch, I am a bit off put by the weird plateau in the bottom out spike of the downstroke region. While it's not the most uncommon to see dips within this peak region, I don't think I've ever seen a dip sustained to this degree before.
