

## G-Square Dreamland Tactile

Last Update: 05/07/2023

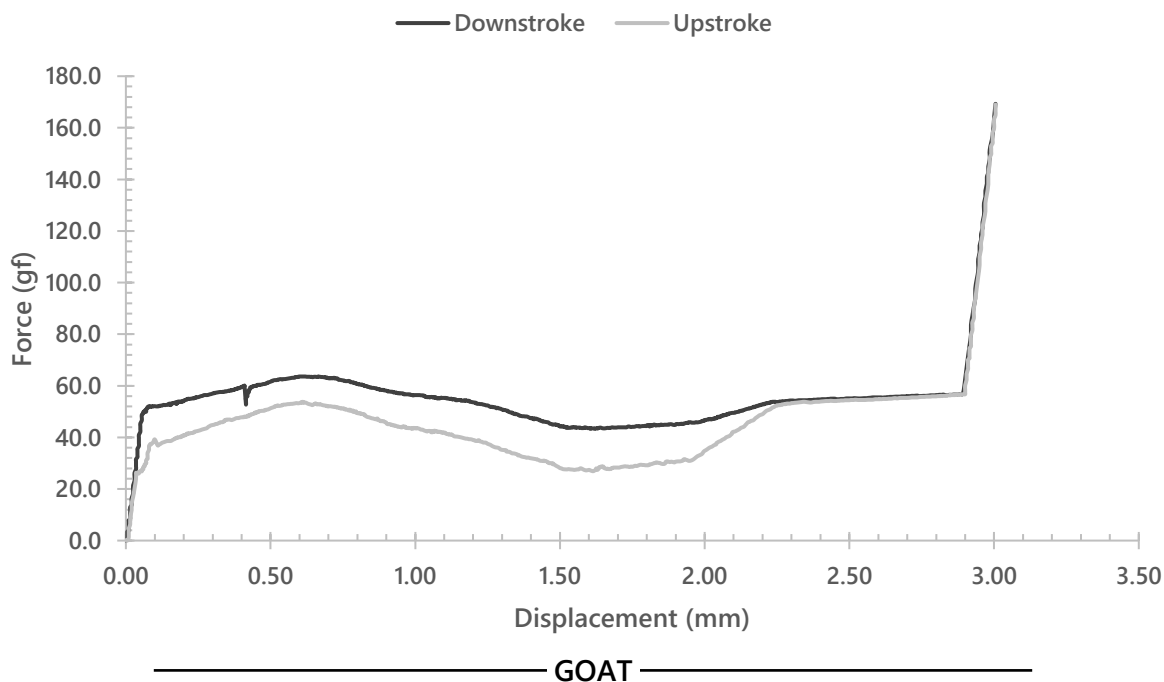

### G-Square Dreamland Tactile

Switch Type: Tactile	Unknown
Total Stem Travel	2.890 mm
Peak Force	63.6 gf
Bottom Out Force	56.8 gf
# of Upstroke Points	884
# of Downstroke Points	1084

### Testing Notes

- Interestingly, the weird down spike in force at the start of the downstroke is something which is also apparent in the G-Square Black Warrior V2 tactile switches, in virtually the exact same place as well. If it is not a function of the leaves of switches with G-Square branding, I'd venture to guess that these two switches share molds.
