

## NextTime Engine V3

Last Update: 08/17/2022

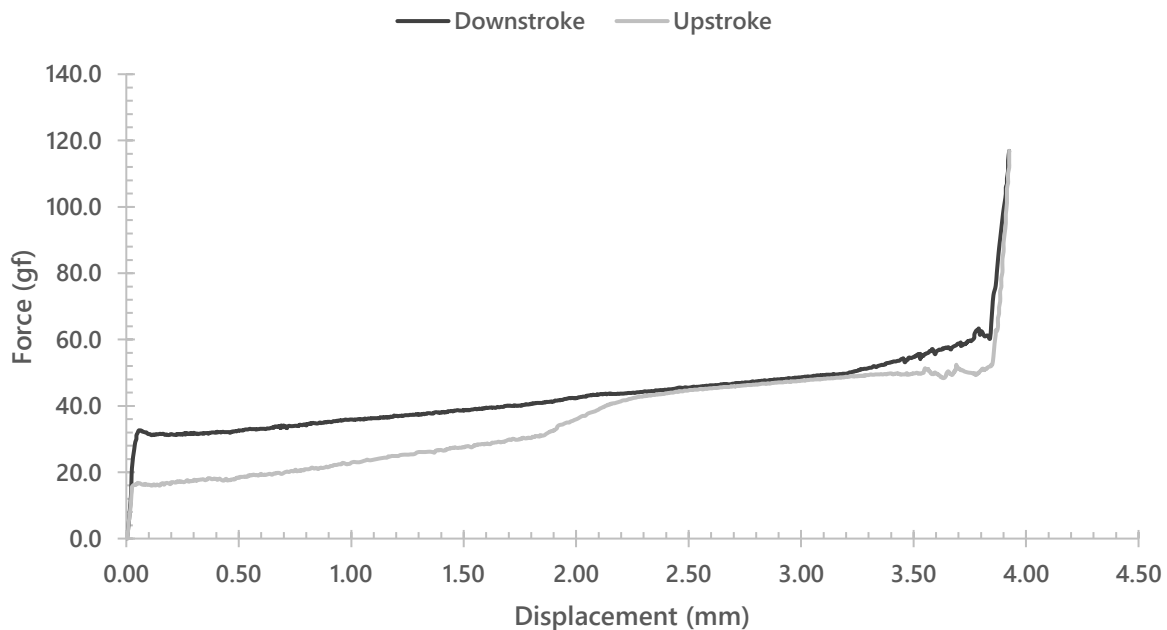

NextTime Engine V3	
Switch Type: Linear	Unknown
Total Stem Travel	3.765 mm
Peak Force	60.1 gf
Bottom Out Force	60.1 gf
# of Upstroke Points	1004
# of Downstroke Points	1097

### Testing Notes

- Data points 1816-1838 were removed from the upstroke force curve due to clear data artifact that was not actually present in the switch's feeling.
- By all considerations and appearances, a fairly normal unlubed linear force curve. The unlubed nature is what leads to the jagged bottoming out region, from my experience.
