Bottom Out Force	44.2 gf
# of Upstroke Points	731
# of Downstroke Points	892

Testing Notes

- Despite this switch being marketed as a “linear”, the force curve below and the general nature of Topre style mechanisms is one that is much more tactile than it is linear. As a result of this, I’ve chosen to include it in the “tactile” category despite its valid, contextually relevant marketing otherwise.
