

## Gateron Lanes – 34000 Actuations

Last Update: 09/14/2025

Gateron Lanes	
Switch Type: Tactile	Gateron
Total Stem Travel	3.900 mm
Peak Force	61.9 gf
Bottom Out Force	49.0 gf
# of Upstroke Points	876
# of Downstroke Points	1032

### Testing Notes

- These switches have unusual force curves for tactiles as they're produced through the use of a leaf mechanism that is equally as uncommon to see in MX footprint switches. Similar switch mechanisms from modern switches – like Melodics or Zeal's 3-in-1 Clickiez – also produce curves like these.
